The diagram illustrates a water supply system. A central pump, labeled "ポンプ" (Pump), is connected to two vertical distribution stacks. The left stack contains four pipes labeled 11, 12, 13, and 15 from bottom to top. The right stack contains six pipes labeled 1, 2, 3, 5, 6, and 7 from bottom to top. Additionally, pipe 8 is shown below pipe 7 on the right side. A line connects the pump to the top of the left distribution stack.
